

THE COLUMBINE HIGH SCHOOL MASSACRE

© Steady State, Inc. 2013, 1999.

ADULT DIRECTED**BY FEDERAL AGENTS****INCLUDING FBI, CIA & ATF**

He . . . is guilty of murdering 15 students.

✓ **TARGET:** . . . 1st and 2nd Amendment - - specifically gun shows.

✓ **METHOD:** . . . Fed's search for web sites of disaffected teens living in the desired local (Denver) and upon locating one, a "handler" is assigned to provoke the desired action.

- By Lawrence Patterson, Publisher

The **CONSPIRACY**

Directed the **KILLING!**

. . . . This is a very early analysis but. . . already it is clear to this writer that the Columbine massacre was a classic federal operation - - very similar in nature to the execution of the 168 Americans at the Murrah Federal building. It is not at all difficult to explain how such an evil operation can be set up by Federal Agents. They assign men to search the internet for websites of disaffected teens in the local where action is desired to occur. In this case Denver, Colorado where the National Rifle Association was planning to have it's major convention within a week after the shooting occurred.

. . . . This may shock some of our newer readers. It is will understood by most Americans that the cancellation of the 2nd amendment of the Constitution (the right to bear arms) is a very **high level** - - and primary goal of the Clinton Administration and their secret backers in New York, Moscow and Tel Aviv. They wish to disarm Americans and complete the process of the surrender of the country to the New World Order under Zionism/Communism. They would rather **not** deal with 200 million Americans who are well armed and will ultimately confiscate every weapon that they can get their hands on. The Columbine massacre is simply part of this process. We are at war with a dictatorship in Washington.

Early **TV COVERAGE**

Reveals the **TRUTH**

. . . . Just as in the Murrah disaster and the TWA 800 shoot down, very early reports from the media frequently revealed a considerable amount of truth. This is simply because it takes a few hours for the orders to come down from Park Avenue on day one to the media executives and through them to their subordinates to **cut off** all coverage of topics A, B C, and D. Therefore in the earlier stages we learned in the Murrah building destruction that there were multiple explosions **FROM WITHIN** the building. Only the original copies of the television broadcast of that very day will reveal this. (See our latest videos on the conspiracy *Shocker I* and *Shocker II*.)

Medical Teams

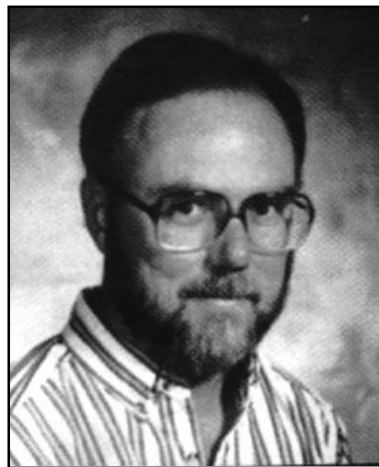

HELD BACK 3 1/2 HOURS
INCREASING # LOST

. . . . In the Columbine matter we learned that the ATF and FBI swat teams blocked all emergency treatment of the injured - - including the dying teacher - - who was bleeding to death for a full four hours to increase the body count. After all, to embarrass the **National Rifle Association (NRA)** it is necessary to have a large number of people dead (*one or two would not do it*). Of course we need not mention the purposeful murder by Federal Agents of 86 Americans in the Waco Davidian Church massacre.

A TEACHER left to DIE

. . . . How many students could have been saved had the Fed's allowed the medical teams in - - no one of course knows. But the revered teacher - - David Sanders, clearly would have

survived (at least according to press reports) had he been given proper medical treatment right away. Surely these Federal Agents are an **accessory to the murder** of this devoted and loving teacher, Mr. David Sanders.

Dave Sanders
A Columbine High School
teacher who was shot
and left to die.

. . . . **There is no conceivable excuse for holding the medical teams back for four hours after the two students committed suicide, which according to press reports occurred in the first 30 minutes.**

. . . . To say that the Columbine tragedy was somehow linked with the NRA convention is an understatement. The NRA convention was the **direct** reason for this vicious Federal assassination of these students through their "Handlers".

The CIA can Create a "ZOMBIE"

. . . . Many readers are not familiar with the use of drugs and sophisticated techniques available to the CIA and the FBI to control their dupes. Timothy Hinckley, was such an individual, who was under the careful medical and physical control of CIA agents. They were able to use these techniques and drugs and the repetitive showings of movies of film star Jodi Foster to drive him temporarily insane. . . and to get him to conduct the acts of violence about which we are all aware - - including nearly killing President Ronald Reagan. We suggest to doubting Thomas's who don't understand these techniques to rent the video **Manchurian Candidate** or the Mel Gibson, blockbuster hit, **Conspiracy Theory**.

. . . . While the Mel Gibson movie was developed with all the use of Hollywood paraphernalia, the basic script of the Gibson movie was **absolutely** accurate and correct on target with regard to the CIA's use of torture, drugs and injections of poisons into the systems of their targets to get them to cooperate and carry out orders that they want fulfilled. (The Gibson film is available at our offices in Cincinnati.)

DUPES... USED IN PREVIOUS CONSPIRACY MURDERS!

Lee Harvey Oswald had Clay Shaw as his CIA handler.

Tim McVey had John Doe #2 which - naturally - the FBI couldn't find!

The Kids in the Jonesboro killings had adult directors: - - Satan cult worshippers!

The DISAFFECTED TEENS

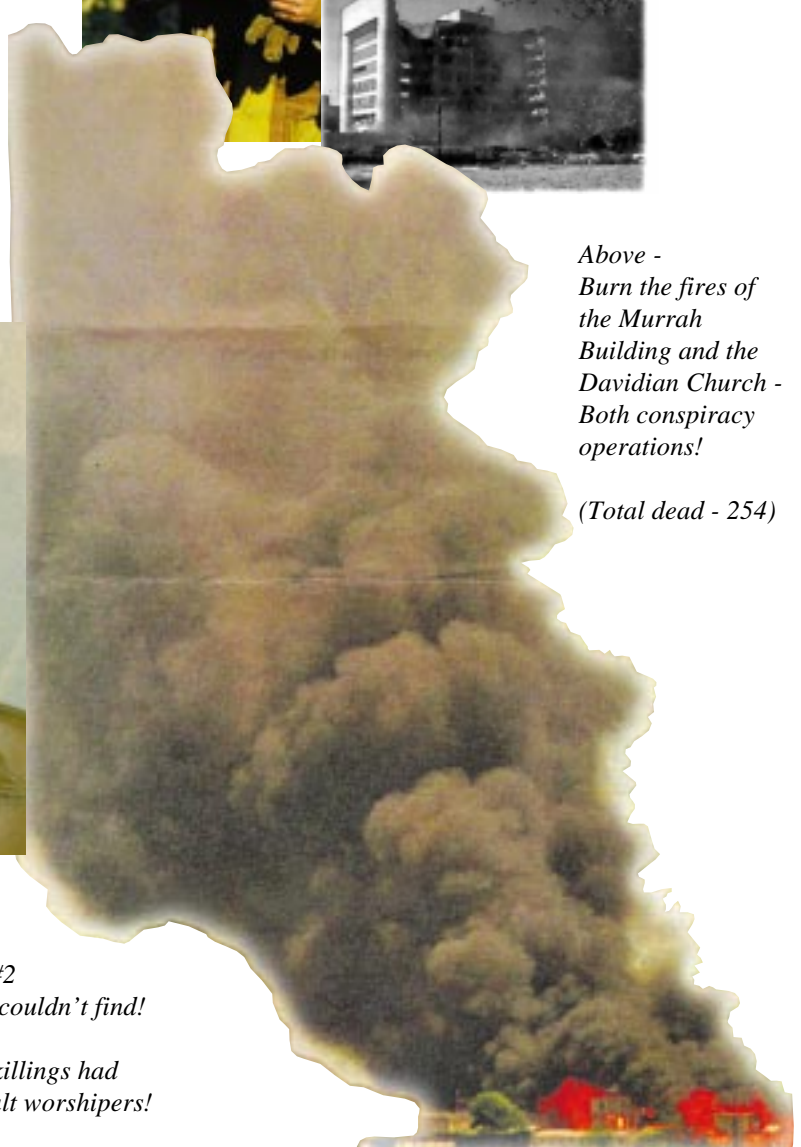

. . . . With regard to Eric Harris:- - Eric Harris has already been pretty well exposed as a seriously troubled teen. According to ABC Evening News of April 26, Randy and Judy Brown, neighbors and parents of a student at Columbine who was a friend of Eric Harris. . . said a year before the shooting they were **so concerned** about Eric Harris's violent writings on the internet that they went to the police. These violent writings were undoubtedly the result of his "handlers". The Brown family had trouble with Eric Harris. They say that Eric had threatened their son and. . . had vandalized his car. Then Mr. and Mrs. Brown were given printouts of threats of mass murder from Harris's website. They took them to the police and revealed the contents. The entire website was dedicated to how Eric Harris was going to **"kill the entire State of Colorado"**.

. . . . What did the police in Jefferson County Sheriff's do?: - - They said thank you very much and promptly forgot the whole thing. Does this smell bad?? You bet! . . . It smells like they are in on the Federal plan to carry out the assassination of the students. Pages from the Harris website read: . .

Above - Burn the fires of the Murrah Building and the Davidian Church - Both conspiracy operations!

(Total dead - 254)

... **"I will rig up explosives all over the town and detonate each one of them at will. . . after I mow down a whole area of you snooty, rich #%%*!@\$!"** . . . the message continued with a string of expletives. The page continued as follows: **"All I want to do is kill and injure as many of you as I can."** One of the pages had the recipe for a pipe bomb and concluded. . . **"Now our only problem is to find the place that will be ground zero."**

... Those who are not familiar with the internet may not understand the above - - but when Federal Agents see something like this they know an easy way to reach the author of the message: it's called "E-MAIL". . . So they enter in to an "internet chat group" with Eric Harris and further psychologically play with him - - **until he is ready to explode.** At that time they can direct him to the right time and place that is desired and offer whatever help is necessary to carry out the murders. Not so very complicated.

... One of the Sheriff's deputies admitted on ABC News, April 26, that **they knew** about Harris's plans to make bombs. It is obvious that they did nothing about the plans to make bombs or any other threats to conduct a mass murder on Harris's website. How do you explain this? You can't! . . . It was their responsibility to investigate such things and take appropriate action. Why didn't they? Obviously they were told to leave it alone - - and not touch the matter at hand. This is part of the proof of the **Federal control** of this purposely created mass murder of young people in America. The goal is to carry out the further destabilization of our country and. . . conclude the process of binding this country into a irretrievable slavery and loss of freedom in the times ahead.

TEACHER - SHERIFF
likely "HANDLERS"

... The AP Wire Services reporting across the country on Monday the 26th carried the story that Dylan Klebold and Eric Harris had made a film, as an assignment in their video class at Columbine High School that is very revealing. The video shows the two students shooting weapons as they go down school halls wearing trench coats. According to AP the two subsequently became angry that they couldn't show the video to the whole school. **This** combined with other information available to the sheriff's department would lead this writer to believe that this was a federally orchestrated killing for the purposes mentioned above.

... Agents and "handlers" placed inside the sheriff's department. . . and inside the school quashed any further discussion of these clear and obvious signals of the terrible, psychological derangement by both students. What were they to **think** - - about a video that they produced showing them mowing down students with high powered weapons??. . . Think about it. If you were a teacher and a student turned in a video as a class project with such a content. What would you do? . . . Would you just pass it off and grade them A+ or (perhaps an F) and forget about it? *No, no sane individual would do that in view of the current series of school shootings in recent years.*

50-60 BOMBS
PLANTED

... The number of bombs that were planted in the building is unknown. The numbers reported go from 30 up to 67. Now we are supposed to believe that during the particular morning the two students carried in as many as 67 bombs into the building and planted them that very morning without being noticed??. . . Such a project would not be possible to carry out. We will never know the entire story of this horrible event but the two students were also **victims** as well as guilty of murder. **They were under the direction of evil men who are employed by our Federal gov't. to plan and execute a massacre.**

... The ultimate goal of these operations should be clear - - to suspend the constitution. . . to declare martial law and to create military control of our country as Clinton has already publicly announced and which has been carried in this magazine, referring to a clip in the New York Times. *(See bottom of page.)*

... A collateral game of course also of great benefit to the conspiracy is to force the topic of Clinton's China Treason off the CNN news broadcast and every other news source available to the public. Media jamming is always a important collateral advantage to such evil crimes.

CLINTON'S TARGET:
YOUR RIGHT OF ASSEMBLY

... On the morning of April 23rd, Clinton made a statement in the Rose Garden that he would increase Federal control of the nation's schools (how wonderful). He urged the nation's public schools to make application (to him) - - to receive funding to put Federalized Police in their local schools. He announced that new federal laws would be proposed within a few days, and these of course relate to termination to right to buy and sell weapons of various types at gun shows and gun clubs, already rejected in the last congress. Once again our constitution is at stake which clearly indicates our right to own and bear arms without a federal license or a federal intervention of any kind whatsoever. *Tell Clinton to "stick" his new "Omnibus Crime Bill".*

GUNS for CHINESE REDS
but NONE for YOU

... Remember, that the Chinese are delivering 1000's of AK-47's to criminal gangs across the United States. (We have proof of a number of deliveries published.) While the criminal gangs will **not** be required to obtain licenses for their AK-47's - - **we** will be required to obtain licenses and permits for the smallest handgun that we might wish to have in our home to protect our family. This is unconstitutional. It is **illegal** and must be resisted with full force. Those who do not wish to partake in this will have only their eyes with which to cry. Go out and buy yourself a weapon at a gun show immediately - - if you have the opportunity before the gun shows are totally closed down and put out of business. (They may be gone by the time you get this message.) **We will make sure that the hotline telephone message advises our listeners of this suggestion.**

... By the way, one of the weapons used by the students was purchased - - according to the feds - - from a local gun show by an under aged young lady and then given to one of the shooters. This justifies (of course) the outlawing of gun shows. We are suppose to ignore what the first amendment says: - - Congress shall make no law respecting the right of the people to peaceably assemble. . . and to petition the government for address of grievances. Surely, peaceably assembling at a gun show is covered by the first amendment to the constitution. *Therefore any such federal restrictions on gun shows is patently illegal and must be resisted in any possible way.*

WHAT DOES THIS MEAN. . . ?

... The meaning for the post 2000 period is grim indeed. They are after our freedom and will commit any murder. . . commit any atrocity to achieve the elimination of our rights and freedoms and to place this country in total bondage. They have an excellent opportunity to blame it all on the computer chips and. . . will probably do that when in fact they have hired the hackers to bring down the electric power grid after 2000.

My dear friends, don't say you weren't warned. Please prepare for devastating and horrible developments next year.

Pentagon Seeks Command:
For Emergencies in the U.S.

Clinton Seems Likely to Approve New Plan

By WILLIAM J. BROAD and JUDITH MILLER
The Pentagon has decided to ask President Clinton for the power to appoint a military leader for the continental United States because of what it sees as a growing threat of major terrorist strikes on American soil, Defense Department officials say.
The plan calls for the military leader to be ready, if necessary, to do such things as order thousands of doctors, stretchers and emergency
Critics of the plan say the risks of military help outweigh the benefits. "The danger is in the inevitable expansion of that authority so the military gets involved in things like arresting people and investigating crimes," said Gregory T. Nojeim, legislative counsel on national security for the American Civil Liberties Union, based in Washington.
Soldiers are trained to kill, not to respect the nuances of law enforcement, Mr. Nojeim added.
"It's hard to believe that a soldier

New York Times, January 28, 1999
